bolle®

| PERFORMANCE INNOVATION SINCE 1888 |

Born in 1888 in France, Bollé is the market leading solution for eyewear and helmets.

Globally respected and worldwide distributed, **Bollé is known as the most advanced design and creative sport brand,** which creates trends and pushes industry boundaries.

| PERFORMANCE INNOVATION SINCE 1888 |

DISCOVER THE BRAND MOVIE 

VISION BEYOND

Confidence is a state of mind in which we seek to free ourselves. For many of us, it is a trigger to progress, to move forward. It is a goal achieved through training, failure, perseverance and success.

Confidence is not about being one hundred percent certain, it's about **seeing possibilities instead of obstacles**, opportunities instead of limitations. Once you've gained confidence, you are powered by **a vision** that takes you further than you ever thought possible.

Bollé designs gear with an eye for details that make all the difference, enabling you to venture further than ever before :

**BEYOND BOUNDARIES,
BEYOND WHAT OTHERS SEE,
BEYOND YOURSELF.**

REACT FOR GOOD

AT BOLLÉ, WE DON'T CLAIM WE ARE GOING TO SAVE THE PLANET, BUT **WE DO STRIVE TO REDUCE OUR IMPACT.**

FOLLOWING THE RELEASE OF THE COMPANY'S FIRST SUSTAINABLE DEVELOPMENT REPORT, THE TEAM PUSHED EVEN FURTHER FOR THE SPRING/SUMMER 24 SEASON WITH THE LAUNCH OF A FULL RANGE OF ECO-DESIGNED HELMETS, INCLUDING ROAD, MOUNTAIN BIKE AND URBAN MODELS. **65% OF THE COLLECTION ARE NOW PART OF OUR "REACT FOR GOOD" PROGRAM.**

OUR APPROACH TOWARDS SUSTAINABILITY TOOK A BIG STEP FORWARD ON THE SUNGLASSES SIDE AS WELL. **100% OF OUR PERFORMANCE FRAMES EQUIPPED WITH OUR PROPRIETARY LENSES PHANTOM AND VOLT ARE NOW ECO-FRIENDLY***, MAKING THE BOLLÉ CYCLING RANGE THE BIGGEST ECO-DESIGNED OFFER AVAILABLE ON THE MARKET.

BRAND HISTORY

1888

A FAMILY BUSINESS

Seraphin Bollé created the brand Bollé; known at this time as one of the first company to use newly developed celluloid, which becomes the basis for Bollé products during those early decades.

1960

SKI GOGGLES

Ski goggles were first marketed by Bollé.

2015

CYCLING HELMETS

Launch of the cycling helmets line.

2018

PHANTOM

Launch of the best sport lens ever.

2023

AVIO

Highest performance road cycling helmet.

1936

SUNGLASSES

The brand launches its first sunglasses and becomes quickly the pioneer of molded Nylon.

2007

SKI HELMETS

Launch of the first line of ski helmets. A front-line player in the winter sports landscape.

2021

VOLT

A revolutionary high-contrast lens.

2021 - 2024

REACT FOR GOOD

Launch of a full eco-designed cycling range.

OUR LIGHTEST AVAILABLE HELMET SAFETY SYSTEM

This is a system lighter than anything we have made before. With air flowing through your helmet it feels like wearing nothing, except added safety.

MAXIMUM VENTILATION

MINIMUM WEIGHT

ROAD HELMETS

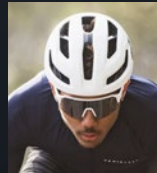

PERFORMANCE REDEFINED

The AVIO MIPS is Bollé's most advanced high-performance road cycling helmet we've ever created. A balance of lightness, ventilation, aerodynamics, and comfort while maintaining the strict requirements involved with helmet certification. Numerous design iterations were necessary to balance these attributes into a single helmet. The result is the most lightweight, ventilated, aerodynamic helmet Bollé has ever designed.

STRIKE-CAGE TECHNOLOGY

The strike-cage reinforces the helmet structure and pushes the limits of vent sizing that impact certification would allow. Large front vents are aligned with small rear exhaust ports to create a low-pressure zone at the rear of the helmet. This low pressure pulls air through the helmet keeping the rider's head cool.

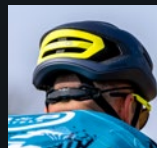

OPTI-DOCK

With Bollé's deep history of eyewear design and development, we made sure to have a dedicated place to stow your eyewear. The Opti-Dock storage system has been designed with flexible rubber fins that securely hold frames of all sizes and styles without temples contacting your head or obstructing airflow.

KAMM TAIL

Through Computational Fluid Dynamics (CFD) testing on a supercomputer, we were able to refine the helmet's geometry to minimize drag and reduce wake to create a fast aerodynamic shape.

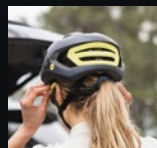

Constantly looking to optimize the weight of our helmets, we have chosen MIPS's most lightweight rotational impact solution for our AVIO helmets. The padding design reduces rotational forces during impact while giving the impression of wearing nothing.

PERFORMANCE CLICK-TO-FIT™ SYSTEM

The system has been completely redesigned to be even more comfortable, lightweight, and adjustable. Women's needs were also considered, the fit system can be lowered to accommodate a ponytail.

AVID AERO PROGRESSIVE EPS

The next generation of Bollé's AVID Progressive EPS technology combines high- and low-density impact management while directing and increasing airflow through the helmet. Deep channels and recesses inside the helmet improve airflow while lowering the density in specific areas and without compromising the ability to provide impact protection.

DISCOVER THE PRODUCT VIDEO

The AVIO is Bollé's ultimate high-performance road helmet. The fastest cycling helmet ever designed by the brand has it all. Ultra-lightweight thanks to its EPS design, lightweight in-molded components and optimized fit system, it features MIPS AIR, MIPS's most lightweight brain protection system. Super ventilated, the AVIO is designed to align both deep internal channeling and large front vents with small exhaust ports that create low pressure at the rear of the helmet for extra air circulation. Developed to make you faster with cutting-edge aerodynamics, the AVIO has an optimized low-profile shape and is equipped with the AVID Aero Progressive EPS to direct airflows and manage impact energy. Conceived to reduce drag thanks to its Kamm Tail at the rear, the AVIO is all about details with an Opti-Dock designed to securely hold all-sized sunglasses and even a ponytail compatibility. A new generation of helmets with no compromise.

Star of our eco designed range for commuters, the HALO REACT is a must have for the urban environment. 100% recycled nylon webbing and padding fabric, plastic parts in 100% recycled nylon, cap in 100% recycled fabric and cork incorporated in the EPS are all part of our eco approach. The HALO REACT is a high end urban helmet above all designed for your safety. It is equipped with an integrated and USB rechargeable back and front LED system, easy to turn on and off with several lighting modes, to make sure you will be seen at night. At Bollé, when it comes to protection, we always look for the best so we combined our AVID Progressive EPS technology with MIPS, the best brain protection available. With the Halo React, you will stay safe at all times.

Pillar of our eco-designed commuter range, the ECO REACT VISOR now comes with a clear visor for optimal vision and protection. The same qualities that make our helmet lightweight, comfortable and safe also make it eco-friendly. With the ECO REACT VISOR, we are challenging the traditional way to make helmets, replacing some plastic and petroleum products with organic and recycled materials to reduce the environmental impact. We have added cork to the EPS, recycled polyamide in the fit system and used 100% recycled padding, webbing and nylon webbing divider. It's our first step to respond to the needs of cyclists who want to pursue an active lifestyle in the city while doing their part for the planet.

PERFORMANCE SUNGLASSES

PLATINUM

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical. Platinum represents the highest level of expertise in anti fog and anti scratch protection.

With **Phantom**, Bollé brings this expertise to everyone.

A perfect protection with a more performing anti fog and an anti scratch that last 40% more than the standard.

LIGHTWEIGHT

NXT[™] material is close to the lightest lens material available today, at 14% lighter than polycarbonate. This allows for larger designs with fuller coverage, ultimate protection and utmost comfort.

AVAILABLE IN PRESCRIPTION

Because everyone's vision is unique, Phantom lenses are available on our RX-able frames, suitable for 99% of prescriptions.

HIGH IMPACT RESISTANCE

NXT[™] lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT[™] is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

OPTICAL CLARITY

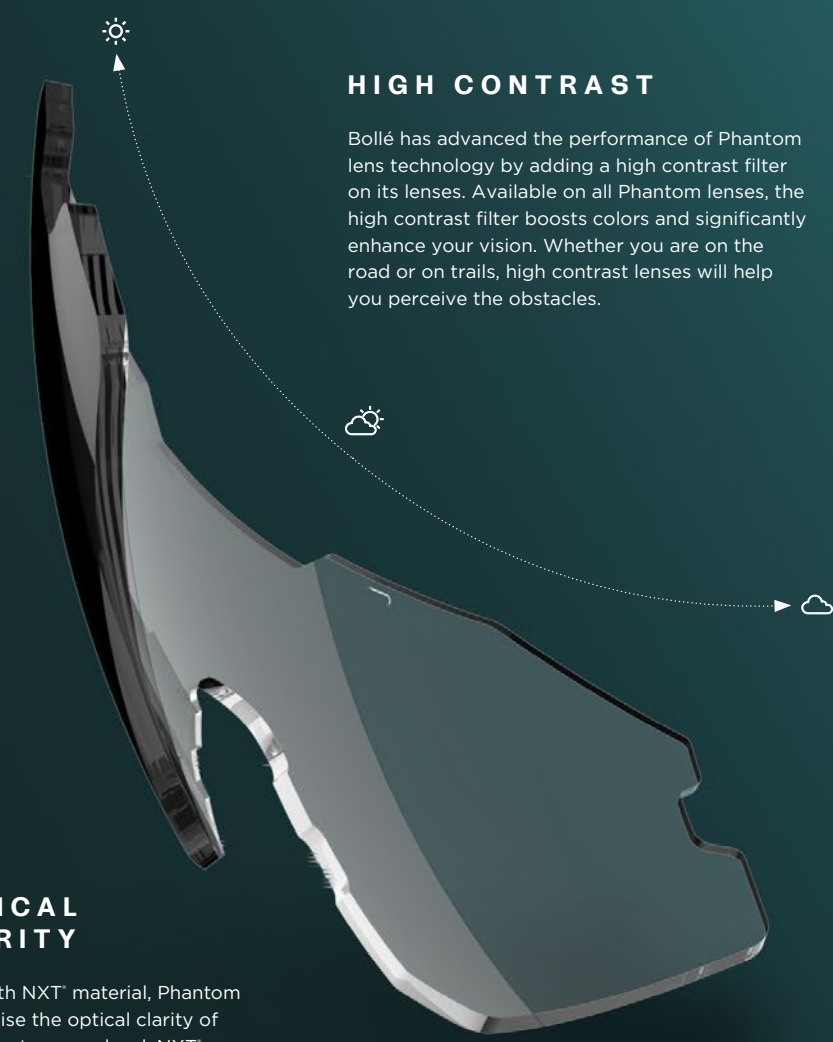

Made with NXT[™] material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT[™] material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

PHOTOCHROMIC PERFORMANCE

Phantom lens technology adapts to any light condition, ensuring precise visual acuity whatever the weather. The lens tint changes with the light from cat.1 to cat.3. Enhanced vision whatever the conditions.

HIGH CONTRAST

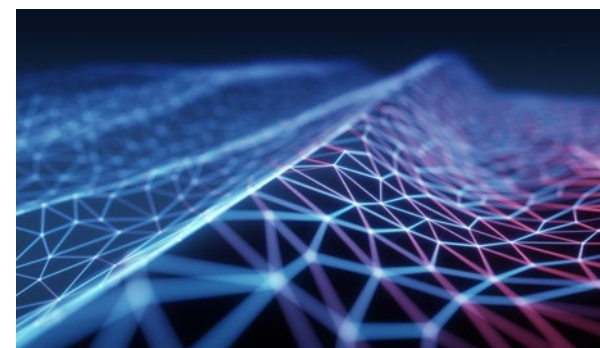

Bollé has advanced the performance of Phantom lens technology by adding a high contrast filter on its lenses. Available on all Phantom lenses, the high contrast filter boosts colors and significantly enhance your vision. Whether you are on the road or on trails, high contrast lenses will help you perceive the obstacles.

[DISCOVER THE TECHNOLOGY VIDEO](#)

THE FIRST LENS EVER DEVELOPED WITH ARTIFICIAL INTELLIGENCE.

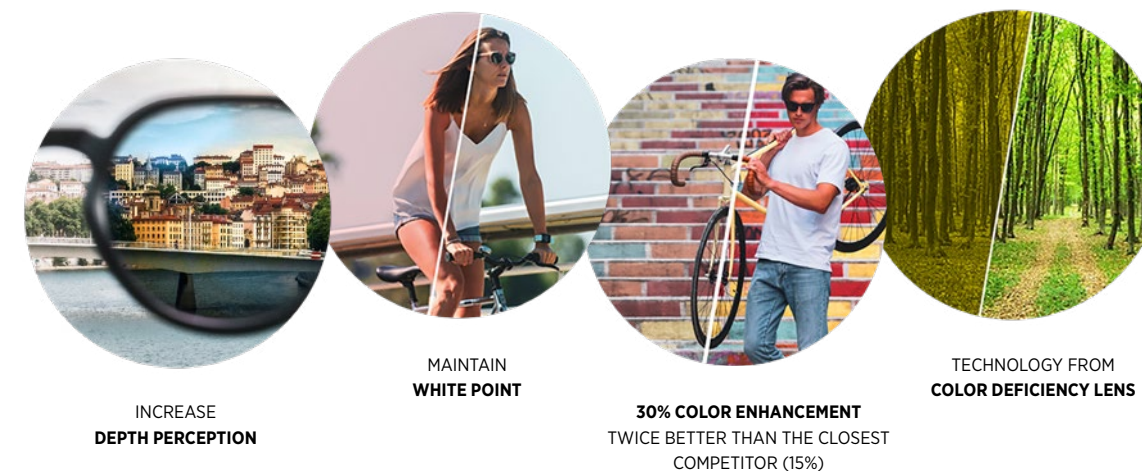

1. Find out which wavelengths to enhance or dampen
2. Design and develop the chemical compounds (pigments) that will absorb the right wavelengths
3. Put together the perfect blend of pigments for the transmission curve we want to achieve

20 MILLION COMBINATIONS EVALUATED, 1 UNIQUE FORMULA.

THE ULTIMATE IN HIGH CONTRAST

Volt lenses are now made of 60% bio-sourced polycarbonate.

DISCOVER THE PRODUCT VIDEO

A part of Bollé's history and worn by the best athletes in the world, the MICRO EDGE is the symbol of the brand's advanced design and creativity. With its narrow shield and sharp lines, this modernized version is one to be remembered. This half-rim frame is 100% focused on performance with an exceptional horizontal and peripheral field of vision. Ultra-comfortable, it has an Adjustable nose piece and adjustable temple tips to guarantee a perfect fit. Light and flexible, the MICRO EDGE is also eco-designed with 45% bio-based frame, temples and nose piece (made with renewable castor oil). Available with Phantom, our best photochromic lens for a phenomenal vision and with Volt, our revolutionary high contrast lens.

EVOLUTION

Mickaël Eveno
aka Grems

A complete artist with overflowing energy, Grems is the kind of unstoppable artist, who will always push the boundaries until the end. His two main creative tendencies, art and music, developed alongside one another, are teasing and forcing each other to more energetic production in order to always create something unexpected while keeping his well-known and unique style.

The trace
collab

"It all comes down to a trace. A trace as a race route, a trace as a brush stroke, a trace as a product shape or simply a trace as the mark that Bollé will leave in history. A trace left by an object, a tool. I create a link between the journey and the outcome. I want to make the invisible visible. I illustrate through my language of trace the invisible bond between efforts, performance, and achievement."
